PROFILE

I am an enthusiastic and self-motivated Artificial Intelligence and Machine Learning student with a strong passion for technology, innovation, and problem-solving. I enjoy exploring how intelligent systems can make real-world impacts. I have hands-on experience with Python, HTML, CSS, and JavaScript, and I'm continuously improving my skills in data science, computer vision, and deep learning. I aim to contribute to meaningful projects that combine creativity with AI-driven solutions while growing as a skilled developer and researcher.

PROJECT

Developed a Mobile & Web Application Crowd Sourced Civic issue Reporting App

- I am an AI and ML student passionate about building real-world solutions using technology. I developed a Crowd-Sourced Civic Issue Reporting App that uses the YOLO model to detect and classify civic issues from user images, showcasing my skills in computer vision, machine learning, and development.
